

## THE TRIBUNE

A. D. MATTHEWSON, Editor.  
Published by THE TRIBUNE PUBLISHING CO.  
A. D. MATTHEWSON, - H. LUTHER PRY.  
RICH HILL, MISSOURI.

Drivers of aeroplanes should keep to the right.

Clean streets and alleys mean better public health.

Help the summer charities to help the poor ward off disease and death.

Orville Wright rose to the occasion.

Only a very deaf man does not hear the call of the summer resorts at this time of the year.

Very soon the days will begin to grow shorter, like the funds of the man on vacation.

A lemon famine is threatened, it is said. Perhaps this is due to the frequency and number with which they have been handed out of late.

Poison ivy adds nothing to the general joy of a Sunday school picnic. Let the management bear this in mind.

If the scorching automobilists blew up their dust in front instead of stirring it up behind they would go more slowly.

Free and independent America has 100,000 hay-fever victims. They should take the matter to the supreme court, as it is clearly unconstitutional.

As no word has been received from Peary for a good while it is no more than polite to assume that he has discovered the north pole.

When you go on your vacation take along a little something to keep off the mosquitoes and then a little something to cure the bites.

In this age of realism why not renovate some of the old saws? How about "The typewriter is mightier than the repeating rifle?"

Here is a powerful argument for the more-daylight plan: It would give the human race two extra hours in the afternoon to see the baseball game.

With the capable flying machine cutting high jinks the Dreadnoughts are beginning to wonder if a more modest name would not be a better fit.

Baseball was never before so big a business, and it was never so big a task to keep the business going just right, but there is never a hint of crookedness in that sport. No wonder it is the national game!

In various European and American magazines and other publications we see a great many articles under such titles as "Why England Fears Germany," "Why France Fears Germany," etc. It seems that there is hardly a nation in Europe that doesn't fear Germany.

New York continues the good practice of letting poor people sleep in some of the parks these hot nights. An extra police guard is detailed and everything is orderly. Some of the victims in stuffy hotel chambers must be filled with longing to be poor "for one night only."

If you see a rattlesnake in your summer peregrinations, do not run to the faithful flask. Modern science declares that those who recovered through its agency in the past must have owed their lives to a lively imagination, as the remedy is without merit.

There are dried apples—why not dried potatoes? Germany is trying practical experiments in the direction of the latter economy, and several potato drying plants are in operation. In different sections of the empire. It takes 550 pounds of potatoes in their normal condition to make 220 pounds when dry. A brisk market is found for the product, owing to the advancing price of grain.

How wealth may be piled up quietly and amazingly is instanced in England, where the death of a comparatively unknown resident of Reading, where he lived practically as a recluse, reveals that he left an estate of \$50,000,000 to \$75,000,000, from which the government will collect about \$10,000,000 in death duties and succession taxes. The most successful men are not always those who make the greatest stir in the world.

The German company which is building a non-rigid dirigible balloon with a lifting capacity of 54 persons has evidently not been frightened by the fate of the big non-rigid California dirigible which broke under the weight of a large load of passengers and dropped them to the earth. Unless the weights beneath a non-rigid dirigible are carefully adjusted the dirigible is apt to be dangerous to the envelope when the ship is driven through the air by her propellers.

One of the Zeppelin airships is to be permanently stationed at Metz. That town is a fortress in Alsace-Lorraine, which Germany acquired from France at the close of the Franco-Prussian war. The German government gets a supply of war balloons from Zeppelin, and there you are. France has been indulging freely in airships for military purposes, but a glance in the direction of Metz, once a French stronghold but now a German possession, will be sufficient to show that there are others.

## ELECT VAN SANT COMMANDER

FORMER GOVERNOR OF MINNESOTA HEADS G. A. R.

Mrs. Berry of Des Moines, Ia., Named as President of Woman's Relief Corps—Others Chosen.

Salt Lake City, Utah.—Samuel R. Van Sant, former governor of Minnesota, became commander in chief of the Grand Army of the Republic. He won over Judge William A. Keitcham of Indiana by a vote of 587 to 156. Mrs. Jennie L. Berry of Des Moines, Iowa, won in a fight for the national presidency of the Woman's Relief Corps. After three ballots she was elected over a Belle Harris of Kansas, by a vote of 213 to 90.

Both elections were held in executive session. The Grand Army's order of business did not provide for the election of officers, but the increasing departures of delegates warned the encampment that an early choice would be necessary to secure a full expression of the will of the majority. In addition to Commander Van Sant, the following officers were elected:

Senior vice commander—W. M. Bostaph, Ogden, Utah.  
Junior vice commander—Jodge Alfred Beers, Bristol, Conn.  
Surgeon general—W. H. Lemon, Lawrence, Kansas.

## THAW BACK TO THE ASYLUM

Court Decided That the Mind of Stanford White's Slayer Has Not Been Restored.

White Plains, New York.—The state of New York won a complete victory over Harry K. Thaw when Justice Isaac N. Mills decided that the slayer of Stanford White was still insane and sent him back to the asylum for the criminal insane at Matteawan. Not one of the many contentions made by Thaw in the three weeks of his recent hearing was sustained. He is, however, somewhat better off than before he brought the present suit, because Justice Mills in his decision suggests—and the suggestion amounts practically to orders—that Thaw at Matteawan be restored to the privileges he enjoyed in the first three months of his stay there, and that his mother be allowed all the possible privileges and treated with every consideration when she calls to see him.

## A SCHEME THAT WILL NOT WORK

Attorney General Jackson Heads Off Another Plan to Sell Liquor in Kansas.

Topeka, Kas.—Fred S. Jackson, the attorney general, in an opinion, says that a druggist who hands out circulars and price lists of liquor houses and collects a commission, is guilty of soliciting liquor orders and can be prosecuted. A Kansas City liquor firm has been asking druggists to hand their former liquor customers or persons likely to buy liquor circulars and price lists of liquor.

The druggist was to receive 20 per cent commission on all sales. The wholesale house told the druggist that they could not be prosecuted for these transactions. The attorney general, however, has notified the county attorneys to begin prosecutions of this first offense they hear about as this is an indirect method of soliciting orders.

## Ten People Die in Hotel Fire.

Vernon, B. C.—Ten lives were lost here in a fire that destroyed the Okanagan hotel. The flames were discovered about two a. m., and so suddenly did they sweep through the building that when the firemen arrived the stairways were wrapped in fire and scarcely had a stream of water been turned on the blaze before the entire building was aflame. Most of the 60 guests escaped but some were unable to get out of their rooms.

## Curtis Takes Airship Along.

Paris, France.—Glen H. Curtis, the American aviator, arrived here but proceeded immediately for Rheims, where he will represent the Aero Club of America in the international aviation cup race August 28. Mr. Curtis is carrying his aeroplane as personal baggage, and upon his arrival at Rheims will set up the machine, preparatory to making his flight.

## Trouble Continues at Barcelona.

Paris, France.—The Matin's correspondent at Cerbere, near the Spanish frontier, says that 25 persons were shot recently in the Montjuich fortress at Barcelona for their share in the recent revolt there.

## Seized Car Load of Flour.

Muscatine, Iowa.—The United States government has seized a carload of flour here under the charge of a violation of the pure food and drug act, because the flour was bleached.

## Still More Successful Flight.

Washington, D. C.—Establishing a new record for aviation in America, Orville Wright, in the Wright aeroplane at Fort Myer, made a spectacular flight of one hour 20 minutes and 45 seconds duration.

## A Baker Man to Indiana.

Baldwin, Kas.—Rev. Harry Andrews King has been elected president of Moore's Hill college, Moore's Hill, Ind. Rev. Mr. King, for several years, has been educational secretary for Baker university.

## G. A. R. ENCAMPMENT CLOSES

St. Louis Was Only 14 Votes Behind—Fireworks on Ensign Peak Ended the Program.

Salt Lake City, Utah.—The forty-third national encampment of the Grand Army of the Republic ended with a fireworks display on Ensign Peak. With the closing ceremonies of the encampment the exodus of delegates and visitors began and outgoing trains were taxed.

The final day was devoted to the selection of a meeting place in 1910 and the election of officers by the parent association and allies and auxiliary societies.

By the close vote of 307 to 232 Atlantic City was chosen over St. Louis in the contest for the encampment of 1910. The fight was spirited.

When New York was called the commander of the department announced the vote as 53 for Atlantic City and 1 for St. Louis. This gave the sea coast city a lead that could not be overcome and when the result was tabulated it showed a majority of 14 for Atlantic City. The vote showed the east arrayed against the middle west with the far west and south more or less divided.

At the afternoon session the final details of the convention were disposed of and commander-in-chief Van Sant and his fellow officers elective and appointive were installed.

## LONG CROSS-COUNTRY FLIGHT

Willard Sailed 12 Miles in His Aeroplane at Mineola, L. I., in 19 1/2 Minutes.

Mineola, L. I.—What is said to be a record for cross-country distance flight for an aeroplane in this country was made by C. Foster Willard in the Golden flyer, when he covered 12 miles in 19 1/2 minutes.

This exceeds the 10-mile flight made by the Wright brothers' aeroplanes from Fort Meyer to Alexandria, Va., and return several weeks ago.

Leaving Mineola, Willard sailed the machine about 150 feet in the air, and going off at a fast clip, his machine was quickly a speck on the horizon. Soon it disappeared behind the trees. Nearly 15 minutes had elapsed when the speck again appeared miles away in the direction of Westbury. The machine began to glide slowly downward and landed easily in a field between Mineola and Westbury, but the magnet was damaged.

## WRECK AT HUSTED COLORADO

Ten Persons Are Dead and 40 Injured—Three Engines and Several Cars Demolished.

Colorado Springs, Col.—With the death of C. M. McCreary of Dallas, Tex., at the St. Francis hospital, the number of fatalities resulting from the Husted wreck on the Denver & Rio Grande was increased to ten. None of the injured, numbering close to two score, in the local hospitals, is believed to be in a critical condition.

As a result of the collision three engines are in the ditch, two baggage cars, including the contents, are smashed to kindling wood and several passenger coaches are badly damaged. The wreck was due to a misunderstanding of orders, it is said.

## BANK ROBBERS IN MOTOR CAR

Two Young Men Held Up San Francisco Cashier, Secured \$7,000 and Fled.

San Francisco, California.—Driving up to the Valley bank of Santa Clara in a hired automobile two youths covered Cashier Birge and his assistants with shot guns backed them against the wall and, after securing \$7,000 fled in the machine.

Seven miles away, after they had been chased by police and a posse of citizens also in automobiles, the youthful bandits were captured. The chauffeur of their car having purposely caused a breakdown, thus compelling the robbers to take to their heels. The money was recovered and the youths were put in jail.

## Cheap Rates From Kansas.

Kansas City, Missouri.—Independent action by the Chicago, Rock Island & Pacific railroad may result in cheap rates from Kansas for the fall festivities. The passenger agents met in Chicago and turned down a proposal to grant reduced fares from Kansas, Colorado and Nebraska. But the Rock Island took independent action and has announced a rate of 1 1/2 fare for the round trip from points in Kansas within 200 miles of Kansas City. The other lines probably will meet this rate.

## Mingster Wu is Going Home.

Washington, D. C.—For the second time in his diplomatic career Dr. Wu Ting Fang, the Chinese minister to the United States, has been recalled from the Washington mission.

## Wheat, 48 Bushels to the Acre.

Salina, Kas.—The best yield of wheat that has been reported for several years comes from the farm of Frank Nelson near Delphos. Mr. Nelson cut forty-five acres and threshed 2,171 bushels, or a fraction more than forty-eight bushels to the acre.

## A Kansas City Attorney Dead.

New York.—Hugh C. Ward, a prominent Kansas City philanthropist, and a law partner of Governor Hadley of Missouri, died in a sanitarium here of apoplexy.

# \$1000.00

## SOLID GOLD & SILVER AWARD

For the Best Ear of Corn

To be Known as the *H. K. Kellogg* National Corn Trophy

To be Awarded at the

National Corn Exposition, Omaha, December 6 to 15, 1909.

Over one hundred thousand million (100,000,000,000) ears of corn were grown in the United States last year. Over a billion dollars were paid for them. More than a million and a quarter extra dollars went into the pockets of the farmers for corn this year than they received for the previous year's crop.

The reason for this may be found in the fact that the people of the United States are beginning to learn how delicious corn is and to realize its full food value.

Kellogg's Toasted Corn Flakes has placed corn among the indispensable items of daily fare.

The makers, therefore, are interested in the development of the King of Cereals, and have decided to award a beautiful trophy for the man, woman or child who can produce the best ear of corn in two different seasons.

Professor Holden, of the Iowa State College, the greatest authority on corn in the world, will award the prize at the National Corn Exposition, to be held at Omaha, Neb., December 6th to 15th, 1909. Two single rules will govern the plan, and they are—that you send your best ear of corn to the National Corn Exposition, Omaha, Neb., before November 17, 1909, and that you are a member of the National Corn Association. Full particulars regarding which can be had by writing to National Corn Exposition, Omaha, Neb. Tie a tag securely to your specimen and word it: "For the Kellogg Trophy Contest," and write your name and address plainly. If yours is judged the best, you will get the trophy for 1910. If you succeed again next year or the year following, the trophy will become your property for all time. In other words, you must produce the best ear of corn two different years.

There will be no restrictions. Any man, woman or child belonging to the Association can enter. It will be open to every state in the Union. Professor Holden will judge the corn particularly on the basis of quality. The growing of more corn per acre is one object of the award, but the main purpose of the founder of the trophy is for

Increasing the Quality of Corn Used in Making Kellogg's

## TOASTED CORN FLAKES

Many people think we have reached the point of perfection in Toasted Corn Flakes as it is now. Perhaps you have. If you haven't tried it, begin your education in "good things to eat" today. All grocers have it.

KELOGG TOASTED CORN FLAKE CO., Battle Creek, Mich.

The Genuine Corn Flakes has this Signature.

*H. K. Kellogg*

## It Might Have Been.

Knicker—Hudson discovered the Hudson in the Half Moon.  
Bocker—Probably he would have discovered the Mississippi with a full moon.

## Ask Your Druggist for Allen's Foot-Ease.

"I tried ALLEN'S FOOT-EASE recently, and have just bought another supply. It has cured my corns and the hot, itching and itching sensation in my feet which was almost unbearable, and I would not be without it now.—Mrs. W. J. Walker, Camden, N. J." Sold by all Druggists, etc.

## Severe.

Samuel Gompers was talking in the smokeroom of the Baltic about a recent newspaper attack on a rich corporation.

"It was a cruel attack," Mr. Gompers chuckled. "It was as cruel as the Jonesville Clarion's paragraph about old Deacon Hiram Ludlow."

This paragraph headed the Clarion's obituary column. It said: "Deacon Hiram Ludlow of Frisbie township, aged 52, passed peacefully away on Thursday last from single blessedness to matrimonial bliss after a short but severe attack by Maria Higgins, a blooming widow of 37 summers."—Detroit Journal.

## LEWIS' "SINGLE BINDER."

A hand-made cigar fresh from the table, wrapped in foil, thus keeping fresh until smoked. A fresh cigar made of good tobacco is the ideal smoke. The old, well-cured tobacco used are so rich in quality that many who formerly smoked 10c cigars now smoke Lewis' Single Binder Straight 5c. Lewis' Single Binder costs the dealer some more than other 5c cigars, but the higher price enables this factory to use extra quality tobacco. There are many imitations; don't be fooled. There is no substitute! Tell the dealer you want a Lewis' "Single Binder."

## They Were Good Mothers.

Elizabeth Cady Stanton is quoted as saying that a woman's first duty is to develop all her powers and possibilities, that she may better guide and serve the next generation. Mrs. Stanton raised seven uncommonly healthy and handsome children, says an admirer of hers, and the children of Mrs. Julia Ward Howe testify to the virtues of the noted woman as a mother. The eagle may be as good a mother as the hen or the goose.

## Resiliency of Language.

"I say, we are down on our luck!"  
"Yes, we certainly are up against it!"

## TROUBLE IN ROYAL PALACE.

Tidings Borne by Amateur Actor Sufficient to Lead Hearers to Expect the Worst.

The Shakespeare club of New Orleans used to give amateur theatrical performances that were distinguished for the local prominence of the actors. Once a social celebrity, with a gorgeous costume, as one of the lords in waiting, had only four words to say: "The queen has swooned." As he stepped forward, his friends applauded vigorously. Bowing his thanks, he faced the king and said, in a high-pitched voice: "The swoon has quenched."

There was a roar of laughter; but he waited patiently, and made another attempt:

"The swoon has quenched."

Again the walls trembled and the stage manager said, in a voice which could be heard all over the house: "Come off, you dogged fool."

But the ambitious amateur refused to surrender, and in a rasping falsetto, as he was assisted off the stage, he screamed: "The swoon has quenched!"—Success Magazine.

## GOT HIM!

Gertrude—The man I marry must be a genius.  
Bertie—Thank heaven we have met!

## Your Salary.

The universe pays every man in his own coin; if you smile, it smiles upon you in return; if you frown, you will be frowned at; if you slog, you will be invited into gay company; if you think, you will be entertained by thinkers; and if you love the world and earnestly seek for the good that is therein, you will be surrounded by loving friends, and nature will pour into your lap the treasures of the earth. Censure, criticism and hate, and you will be censured, criticised and hated by your fellow men.—N. W. Zimmerman.

## Fitted for the Job.

The general consulted the topographical chart. "You understand, colonel," he said, "that this charge on the enemy's fortification necessitates the most reckless disregard for human life?" "I understand, general," the colonel replied. "The forlorn hope that leads the movement will be composed exclusively of amateur chauffeurs."

## Getting at the Root.

Fair Patient—Oh, doctor, I'm positively all run down and I'm so miserable, I have that tired feeling all the time.

Physician—No doubt. Let me see your tongue.—Cleveland Leader.

## The Newer Way.

Many ideas in regard to women have entirely changed, and among the better and wiser changes is that old thought that the women who were given to good works must needs be dowdy. It is undeniable that "good" women used to wear dowdiness as a sort of hall mark of virtue. As a matter of fact, dowdiness is merely a mark of bad taste and a sign of some lack in the mind. Women are no longer lacking in the wisdom that chooses pretty rather than ugly clothing, and those who do not make the best of their appearance are losing a golden opportunity of giving pleasure.

## Self-Made.

"I might say to you, young men, that I am a self-made man."  
"In what respect?" asked an impatient youth.  
"In this respect, if you must know," replied the orator. "I made myself popular with men who had a pull and thus obtained my present lofty position."

## A Financial Epigram.

"H. H. Rogers," said a New York broker, "always advised young men to get hold of capital. He used to point out to them that without capital a man could do nothing, nothing. He used to pack this truth into a very neat epigram.

"Fortune," he used to say, 'can't knock at the door of a man who has no house!'"

## Her Intentions.

"Do you think your sister will marry me?"  
"If you keep coming."  
"Have you heard her say anything about it?"  
"I heard her tell me that if you didn't stop coming here so often she'd make things unpleasant for you."

## The Exempts.

"Why are all women so anxious to get rid of freckles?"  
"Some of them aren't; but these don't have freckles."

# Ready Cooked. Post Toasties

Come to the breakfast table right, and exactly right from the package—no bother; no delay.

They have body too; these Post Toasties are firm enough to give you a delicious substantial mouthful before they melt away. "The Taste Lingers."

Sold by Grocers.

Made by POSTUM CEREAL CO., LIMITED.

BATTLE CREEK, MICHIGAN.
